

# SELF-ASSESS FOR SUCCESS

These competency-based questionnaires help you understand your relative skills and abilities in proficiency areas to target your development activities.

An overall 'Effectiveness Score' and some simple improvement strategies to start the development journey are provided.

Although ideal for self-assessment, these tools can also be used for 180 or 360-degree feedback. Online versions provide automated scoring and comprehensive output reports.

The first edition of Management Diagnostics **Toolbox**, an informative e-bulletin with the latest content and strategies will be launched on **9 June 2009**.

Visit [managementdiagnostics.com.au](http://managementdiagnostics.com.au) to view the range of assessments available or email [diagnostics@aimqld.com.au](mailto:diagnostics@aimqld.com.au) for expert advice.
